## MAIN FEATURES

Touch screen shredder, all controls are activated by simply touching the panel. Double motor drive technology: equipped with two 24-hour continuous duty motors without overheating and duty cycles, two separate sets of cutting knives (one for paper and one for CDs/DVDs). Kobra 310 TS SS4 can shred up to 39 sheets at a time. Carbon hardened steel cutting knives unaffected by staples and clips. Energy Smart System and automatic disconnection from the mains for maximum power saving, EPC System displays real-time shredding load and helps the operator to optimize shredding efficiency. Kobra 310 TS line shredders can shred transparent material too: keep your finger for 5 seconds on the Forward control and the machine works continuously for 30 seconds.

- Two separate set of cutting knives: CD/DVD dedicated cutting unit for optical media shredding
- Super Potential Power Unit: heavy duty chain drive system with steel gears
- Continuous duty shredding: 24 hour continuous duty motor without overheating and duty cycles
- Carbon hardened steel cutting knives unaffected by staples and clips
- EPC Electronic Power Control: shows the shredding load required to optimize shredding without jams
- Energy Smart System: the machine goes into power saving stand-by mode after just 8 seconds of non-operation
- Automatic disconnection from the mains after 4 hours of non-operation, no need to switch off the shredder
- Touch Screen Panel with LED indicators: just touch the controls to activate the machine functions
- Automatic Start & Stop through electronic eyes Safety Stop at the door opening and/or full waste bag
- Automatic Reverse in case of jamming
- Large 150 litre cabinet mounted on casters.

**EPC Electronic Power Control:** shows the shredding load required to optimize shredding without jams.

Two entry openings and two sets of cutting knives for the separate insertion and shredding of paper and CDs/DVDs/credit cards.

Slide out tracks made it easy to empty the two waste collection bags.

## OPTION

The Shred Guard System stops the machine when large metal objects are accidentally inserted. An illuminated optical indicator warns the operator to remove these objects in order to protect the knives.
